5mal abtragen

① $\begin{cases} x = 1,5 \text{ cm} \\ y = 2 \text{ cm} \end{cases}$
 Umfang = $4x + 4y$
 $= 6 + 8 = 14 \text{ cm}$

② $\begin{cases} \text{Umfang } 10x + 10y = \\ = 15 + 20 = 35 \end{cases}$

und $14 : 35 = 2 : 5$
